Dance Fusion offers four exciting dance programs to meet every child's needs...

CORE PROGRAM - our fundamental training program. Dancers take structured yet fun classes in the core dance styles, Ballet, Jazz and Tap. We combine two varieties of classes for dancers ages 2-10, to encourage children to master the fundamentals. All combination classes include Ballet, as we believe it is the most important dance form for all children to learn. This way dancers get to experience two genres of dance in a class for one great price.

RECREATIONAL PROGRAM - a continuation of our Core Program where dancers can train in other styles of dance. These classes are separated into hour long classes that focus on one/ two forms of dance. Genres include Hip Hop, Acro, and Contemporary classes.

COMPETITIVE PROGRAM - our intensive dance training program for students who wish to fully immerse themselves in the world of dance. Dancers must audition for this program each September and are then placed into Companies based on age and ability. There are two options of commitment for our Company Program, our full-time and part-time programs. Each varies in the amount of hours per week and the number of routines and performances the dancers would participate in. Our Company Program is for dancers ages 5-17.

RASASVADA PROGRAM - our new pre-professional training program for high school dancers, ages 14-18. This program is a continuation of a high level competitive dance program with the focus now on professional dance training and performance opportunities. This program is by audition only and the calendar will change annually as performance schedules and shows present themselves.
